

Source:

A magnesium and calcium mineral formulation for ruminant animals manufactured and distributed from our facility in **Green Bay, WI**. Each batch of Multesium is tested for quality assurance and consistency crucial to ensuring an efficient dairy production.

Product Codes:

Bulk: MULT-1501

Guaranteed Analysis:

Calcium Minimum 33.0%

Magnesium Minimum 7.7%

Ingredients:

Oxides, Hydroxides, and Carbonates of Magnesium and Calcium

Bulk Density (approx.) lbs/cu.ft.:

Compact 77 lbs/cubic foot

Loose 61 lbs/cubic foot

Moisture: < 2.0%

A Complete Magnesium Solution for Dairy Cows

Formulated for improved solubility, **Multesium** is an innovative formulation of magnesium and calcium. Multiple lab tests demonstrated that Multesium has over 90% solubility, compared to competitors at 20-30%. This decreases waste significantly, while increasing macromineral efficacy.

US Mesh Screen	% Retained
200	39.5%
325	27.5%
Pan	33%

Multesium is a fine powder that is mixed on-farm with the daily feed ration.
